The church heritage committee maintains an album of weddings, which have taken place at Nichols Hills United Methodist Church.

When you order your wedding photographs, would you please consider ordering one for our album so your wedding will also be included. The photo may be any size and does not need to be by a professional photographer. The only specification is that the setting be somewhere at the church either inside or outside.

Please identify the people in the photograph and include the date of the wedding.

Please send or drop the photo to:
